TERMS OF REFERENCE

Engagement of Consultancy Services for the Conduct of Profile on Corporate Ownership and Cross-ownership in the Philippines

I. Background

The Philippine Competition Commission (PCC) is an independent quasi-judicial body mandated to implement Republic Act No. 10667 or the Philippine Competition Act. The main thrust of PCC is to promote economic efficiency and ensure fair and healthy competition in the markets by prohibiting anticompetitive agreements, abuse of dominant position, and anticompetitive mergers and acquisitions.

To effectively fulfill its mandate, PCC conducts studies on factors and mechanisms that enhance or deter anti-competitive behavior. Corporate ownership and control structures shape the competitive landscape of industries. Knowledge and understanding of these structures and relationships will inform merger analysis, as well as investigations into anticompetitive agreements and abuse of dominant position.

II. Objective

The objective of this project is to profile corporate ownership and control structures of selected industries in the Philippine nexus. The constructed database and summary report will provide useful input for investigations and competitive analysis by the PCC and as basis for the operational and strategic needs of PCC. The project outputs may be periodically updated to reflect market changes and developments in the relationships and cross-holdings between entities.

III. Scope of Work

A consultant shall be hired to construct a database of corporate ownership in the Philippines. The scope of work outlined below covers the top 1,000 corporations¹ in the Philippines:

 - c. proposed presentation format/layout of the corporate ownership landscape and individual shareholdings and relationships;
 - d. names of entities that will be covered in the database; and
 - e. outline of the Summary Report.
2. Construct a database of companies and individuals using data from the Bloomberg Terminal and other sources, including but not limited to the information listed in Annex A. Transfer and present the database to PCC staff, including a briefing on the use and manipulation of the database.
3. Prepare a Summary Report including but not limited to:
 - a. a discussion of the regulatory and legal background of corporate ownership in the
