

**BIDS AND AWARDS COMMITTEE
SUPPLEMENTAL BID BULLETIN NO. 01
May 08, 2019**

*National Survey on the Awareness of Private Firms
on the Philippine Competition Act and the Philippine Competition Commission*

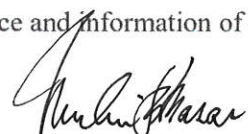

Invitation to Bid (IB) No. 201903-0075

The PCC Bids and Awards Committee hereby includes, revises, amends, deletes and/or adopts the following provisions in the Terms of Reference of aforesaid Invitation to Bid:

Section	Original Provision / Requirement	Amendment / Final Requirement
	Terms of Reference	
II.C	<p>Target, respondents, sample size, sampling method</p> <p>The target respondents of the survey will be small, medium, and large firms from agriculture, forestry and fishery, industry, and services sectors. The survey will be national in scope representing the four broad regions: National Capital Region, Balance Luzon, Visayas, and Mindanao. The survey firm may use either multistage probability sampling or stratified random sampling based on specified variables (e.g., margin of error, level of significance and standard deviation). The survey firm will propose the sampling frame, and the method of allocating and selecting the sampling and elementary units. The desired margin of error is at most 3% for a national level estimate and at most 6% for the domain or for each stratum, with a confidence level of 95%. At least 1,200 face-to-face completed interviews are required for the survey.</p>	<p>Target, respondents, sample size, sampling method</p> <p>The target respondents of the survey will be <u>individuals working in</u> small, medium, and large firms from agriculture, forestry and fishery, industry, and services sectors. <u>The target respondents should be involved in high-level management decisions either individually or as part of a decision-making group, at least holding a middle management position, and should have been in the organization for more than 6 months.</u> The survey will be national in scope representing the four broad regions: National Capital Region, Balance Luzon, Visayas, and Mindanao. The survey firm may use either multistage probability sampling or stratified random sampling based on specified variables (e.g., margin of error, level of significance and standard deviation). The survey firm will propose the sampling frame, and the method of allocating and selecting the sampling and elementary units. The desired margin of error is at most 3% for a national level estimate and at most 6% for the domain or for each stratum, with a confidence level of 95%. At least 1,200 face-to-face completed interviews are required for the survey.</p>

Amendments/inclusions/clarifications made herein shall be considered an integral part of the Bidding Document.

For guidance and information of all concerned.
